

STELLAR STRIP LIGHTING

Is the perfect solution for businesses looking for a versatile, efficient and effective lighting solution for a diverse array of applications.

Our Stellar range:

- Uses 90% less electricity than incandescent light sources and 75% less than neon
- Lasts on average 17 times longer than other light sources and 5 times longer than neon
- Is made of flexible double-layer PCB and waterproof ranges are encased in silicone tubing
- Is durable and shock resistant
- Is easy to install and comes standard with 3M adhesive backing
- Is easy to customise and able to be cut every 10cm
- Contains no harmful or toxic substances
- Does not emit UV radiation

STRIP LIGHTING

APPLICATIONS

Our Stellar range of strip lighting contains a variety of products perfect for any application. They are ideal for architectural lighting, accent lighting, pelmets, coves and balustrades. In addition our Striplights are well suited for 12V systems in automobiles, boats, caravans and motorhomes, providing brilliant light while limiting the load on batteries or generators.

QUALITY

All striplighting from LED Light Works is stringently tested to meet several different certifications, which include CE (Conformitive Europeenne), RoHS (Reduction of Hazardous Substances), and all our products carry the C-TICK, which denotes compliance to the Australian Communications and Media Authority standards on electromagnetic compatibility.

The power supply and transformers supplied with our Striplights are also cUL listed for use in Canada.

Stellar 36W		Chip Type	IP	Max Power Consumption*	Length	LED Quantity	Available Colours	Input Voltage	Lifespan*	Backing
Stellar 36W-5MX	5050 SMD Superbright	None	7.2W/m	5M	150	White, Warm White, Red, Green, Blue, Yellow, RGB	12V AC/DC	50,000 hrs	3M Adhesive	
Stellar WP-36W-5MX		67 (waterproof)								
Stellar 24W		Chip Type	IP	Max Power Consumption*	Length	LED Quantity	Available Colours	Input Voltage	Lifespan*	Backing
Stellar 24W-5MX	3528 SMD	None	4.8W/m	5M	300	White, Warm White, Red, Green, Blue, Yellow, RGB	12V AC/DC	50,000 hrs	3M Adhesive	
Stellar WP-24W-5MX		67 (waterproof)								

* Typical values

cUL and C-Tick Listed Power supply/Transformer available for both Stellar 36W and Stellar 24W.
